Cats and dogs looking for good homes

The Esther Honey Foundation in Nikao has friendly dogs and cute kittens and cats that need good homes.

Because of the large numbers of animals being cared for at the clinic, there is also a need for pet food.

The community is being asked to help support the island's only animal clinic by opening up your home and welcoming another member of the family.

Each of the orphaned animals at the clinic have their own unique qualities and even have some interesting backgrounds which the staff at the clinic are more than happy to share with you.

If you already have a family pet, you can still help by donating pet food to the clinic to help feed all the orphaned animals.

The reason that our island has so many stray dogs and cats is because people forget or don't bother to de-sex and neuter their pets.

The Nikao animal clinic currently has a big group of volunteer vets from all over the world who are ready to help decrease the population of stray cats and dogs on our island.

All you have to do is take your animals to the clinic to be de-sexed and if you know your neighbour has a pet that hasn't been de-sexed — share this article with them.

If you are still wondering what to give mum this Mothers' Day, what about a cuddly kitten or good guard dog? Contact director Gregg Young on 2336
