

Cook Islands news Friday 20 August

It's K9 9K time

To celebrate 15 years of providing services to animals in the Cook Islands – the Esther Honey Foundation animal clinic will join forces with the Hash House Harriers for a K9 9K run next month.

And as the event name suggests – bring your canines for this special event on September 13.

This is the second time this event has been organised, doubling as a promotional day for the island's only animal clinic.

This is a great opportunity for dog lovers to bring their pooches out for a walk or run. It will start from the Punanga Nui Market. Also bring along a can of dog food to donate to the clinic.

Hash House Harriers will hold a barbeque on the day plus there will some other exciting activities on the card – but we won't let the cat out of the bag just yet!

The animal clinic would like to thank the community for continued support over the 15 years that the clinic has been operating on the island.

Watch this space for your next K9 9K run-walk update. - Matariki Wilson
